

**one rule,
one material
any space**

**Exhibitions and trade
fairs, museums, retail,
events, architecture and
interior design.**

Exibo is a holistic method of sustainable exhibition and architectural design.

Through repetition and expansion of a unique geometric element we create memorable spaces for the promotion of products, ideas and services.

Using a modular and reusable construction system, we design experiences for public and private spaces that attract visitors and customers.

Exibo is a service, a design process and a construction system, a one-stop-shop with international activity.

We offer a broad variety of applications: from a simple wall to pop-up stores and installations the possibilities are infinite. Exactly as your ideas!

ΕΡΑΝΕΚ 2014-2020
OPERATIONAL PROGRAMME
COMPETITIVENESS · ENTREPRENEURSHIP · INNOVATION
